

PLUS EARTH SPECIFIC

Multi Hole Gland

With significant differences in the size of earth and solar cables non dedicated glands have a hard time sealing over the long term and may not seal at all. Cobalt Solar's range of Plus Earth glands aid in sealing around earth and solar cables by having port sizes suitable for each in the one gland.

- Superior seal around earth and solar cables
- Faster installation
- Designed for current solar standards

	CABLE RANGE	PART NO.
